Ms. Farley informed the Board that the new system will dovetail with the City-wide Classification and Compensation Study for efficiency, since job classifications will be changing soon. At this stage, the Information Technology Division is providing background information to the new vendor. The Human Resources Department will be the first to beta test the system to identify any glitches or nuances before we implement the program City-wide.

This series has created broader job duties and responsibilities and given the Life Safety Services Division greater flexibility and capability to provide the highest level of service to the community and customers.
- Chief Poster attended the California Chiefs' Conference in Sacramento last week; some interesting topics included Community Paramedicine and new innovations in the fire service.
- The Fire Department has completed 96% of their employee performance evaluations, with only a few late. Colleen Gill, Administrative Assistant to the Fire Chief, has been working hard to bring the Fire Department current with their employee evaluations.
- The Fire Operations Division had a 2nd alarm structure fire on Heather Lane, with one fatality, but no injuries to Firefighters. The fire is believed to be accidental in nature and caused by something electrical.
