

## WHY IS IT IMPORTANT TO REGISTER?

The County of Orange and participating cities will use AlertOC to inform you of what action to take when there is an emergency situation affecting the health or welfare of your loved ones and self.

By registering your contact information, public safety officials will be able to send emergency notifications to your cell phone, work phone, e-mail, text or TTY/TTD device.

**Register at [www.AlertOC.com](http://www.AlertOC.com)**

The City of Newport Beach encourages its residents to register with Alert OC as an important part of your personal emergency preparedness plan.

For additional information, go to the website, [www.newportbeachca.gov](http://www.newportbeachca.gov)

If you have questions or need assistance with your Alert OC registration, call (949) 644-3112.

## WHAT IS AlertOC?

AlertOC is Orange County's regional public mass notification system designed to keep those who live or work in Orange County informed of important information when there is an emergency situation affecting the health, safety or welfare of a community. The system is used by the County of Orange and participating Orange County Cities.

Public mass notification systems have become a critical component of emergency preparation and response.

- Residents prepare to be notified of emergencies by providing their landline phones, cell phones and e-mail addresses.
- Public safety officials respond by using the system to rapidly send out messages when there is a perceived, upcoming or imminent situation that may require community action.

Based on the severity of the event, AlertOC may be used to contact residents by one or all of the following methods: home phone, work phone, cell phone, e-mail, text message.

Visit [www.AlertOC.com](http://www.AlertOC.com) for additional information or to view a list of participating Orange County Cities.

## HOW DOES IT WORK?

- AlertOC has significant capacity to send large volumes of messages through phone, e-mail and text communication channels.
- When there is an emergency event requiring community action, authorized officials record a voice, e-mail or text message that is then delivered quickly to individuals affected by the event. Officials will use the system to keep affected communities informed of event information as necessary.
- The system uses the 9-1-1 emergency databases to contact Orange County households. Cell phones, as well as cable and internet-based (VOIP) phone systems, are not a part of this data. These numbers **must** be self-registered to receive notifications.
- Since there are many instances when the public may not be at home to receive an emergency notification, public safety officials feel it is critical that all Orange County residents register their cell phones, work phones, e-mail addresses, text phones and TTD/TTY devices by visiting [www.AlertOC.com](http://www.AlertOC.com).

**Internet registration is encouraged at [www.AlertOC.com](http://www.AlertOC.com)**

For those without Internet access, please complete the attached registration form and mail to the City of Newport Beach.

Self registration at [www.AlertOC.com](http://www.AlertOC.com) is encouraged. If no online access is available, please use the form below.
