Babylon's **Healthcheck** tool can help you learn about your health and suggest changes for a healthier living. AI services are not a substitute for a doctor, and should not be used in a medical emergency.

Babylon is working with Health Net of California, Inc. to provide access to healthcare when you can't access your doctor, from your phone.

Health Net and Babylon's shared vision is to help transform the healthcare system - by providing access to technology with the potential to drive better health outcomes. Health Net members can now book a video appointment 24/7 through the Babylon app and at no cost for most plans. This means members can access medical providers after hours, even when regular doctors are unavailable. Members can also use the app to tap into a full suite of digital healthcare tools to get information about their health. The Babylon app allows you to take control of your wellness journey. Our AI Symptom Checker and Healthcheck services are great places to start.

Check your symptoms instantly

Feeling off? Describe what's wrong and our AI-powered Symptom Checker can help. Answer questions about your symptoms and we'll direct you to potential causes and suggest options for next steps to take. It can also connect you with helpful resources and put you into direct contact with a healthcare provider.

Talk to a healthcare provider

Babylon's medical providers are available to you via video call 24/7 and can address non-emergency health issues like cold and flu, nausea, and depression when you cannot access your regular care provider. They can give you medical advice, and prescribe medication for pickup at your local pharmacy.

Use our COVID-19 Care Assistant

Worried you or someone you know might have coronavirus? Our COVID-19 Care Assistant can help assess your symptoms, give you updated information on the virus, provide tools to self-monitor your health and connect you with a healthcare provider, if needed. It's easy to use and helps you get the right care at the right time, often without having to leave your home.

Assess your current health

Answer questions about your lifestyle and family history to create a report of your overall current health. Identify your risk factors and learn how to stay healthy long-term.

Health Net contracts with Babylon to provide telehealth services. Babylon services are not covered by all Health Net plans and are not intended to replace services from your physician, but are a supplemental service.

Services other than the services provided by Babylon doctors during the telehealth visit and which are obtained through a third-party service, including prescriptions, lab work, and imaging, are billed separately and separate copayment will apply. Access to telehealth services does not guarantee that a prescription will be written or refilled. Certain exclusions and limitation apply. Some prescription drugs and refills require prior authorization by Health Net or approval by a primary care physician. See your health coverage document for information regarding your health coverage.

Nondiscrimination Notice

In addition to the State of California nondiscrimination requirements (as described in benefit coverage documents), Health Net of California, Inc. and Health Net Life Insurance Company (Health Net) comply with applicable federal civil rights laws and do not discriminate, exclude people or treat them differently on the basis of race, color, national origin, ancestry, religion, marital status, gender, gender identity, sexual orientation, age, disability, or sex.
