Ladies and gentleman.

This has been an embarrassment watching how slow the construction process has occurred on this home.

This has been an embarrassment watching the total lack of respect to the homeowners on either side of this job site.

We all laugh and take bets when we will see the next worker to show up on the job.

There is absolutely no reason for this single family not being completed within the original permit period.

I am sure the owner of this new construction is also frustrated.

I asked the home owner the completion date at our block party in July She stated the builder promised October 13 so no extension needed.

Now asking for a year?

Make the builder show up and justify why it has taken so long and why another year needed.

Do us a favor and grant extension only until Christmas with penalties if not achieved to be paid by builder.

This would be a great Christmas present to the homeowner, neighbors on both side of construction and the rest of us on Hazel Drive.

Stephen Prough
527 Hazel Drive.
