

# IMPORTANT CHANGES COMING TO YOUR CITY UTILITY BILLS

**THE CITY OF NEWPORT BEACH WILL TRANSITION TO MONTHLY  
UTILITY BILLING STARTING IN FEBRUARY, 2025**

## **NEWPORT BEACH RESIDENTS:**

Beginning in February, 2025, the City of Newport Beach will transition to monthly utility billing. This includes charges for water, sewer, recycling and more.

You will receive a utility bill, known as the Municipal Services Statement, 12 times a year instead of six. The transition will begin in February and be completed by March (your exact transition date will depend on your current billing cycle).

- If your account is set up for automatic payments, no additional steps are needed. You will be charged automatically each month, five days before your due date.
- To set up or adjust automatic payments visit [www.onlinebiller.com/newport](http://www.onlinebiller.com/newport)

With monthly billing, Newport Beach's utility bills will align with other payments and help promote water conservation by allowing customers to more quickly detect leaks or other increased water use.
