

## CITY VEHICLE/EQUIPMENT REPLACEMENT GUIDELINES

### **PURPOSE**

To establish a policy to provide a funding mechanism to ensure that the full service life of each City vehicle or item of equipment is utilized to its fullest potential, provide for funding timelines and implement uniform guidelines among all departments.

### **POLICY**

The Municipal Operations Department shall inspect the equipment annually after the vehicle/equipment has reached its useful life - to determine the appropriateness of replacing each piece of equipment in conjunction with the assigned Department. All non-emergency vehicles shall be replaced based on, but not limited to, the following factors; expected service life, lifecycle maintenance costs, fuel efficiency, purchase price (cost), environmental rating etc. The City will actively seek opportunities to use cleaner burning fuels and higher efficiency vehicles when possible.

Should the expected life of the equipment be less than expected, the Municipal Operations Department in conjunction with the Administrative Services Department and the assigned Department will make a recommendation to the City Manager or his designee on the disposition and replacement of equipment.

It shall be the policy of the City that the funding and replacement of all motor vehicles shall be normally based on the expected service life and condition of the vehicle described on the following schedule:
