

**CITY OF NEWPORT BEACH
ADMINISTRATIVE HEARING
STAFF REPORT**

April 2, 2026
Agenda Item No. 1

SUBJECT: Three-Year Construction Time Limit Extension in Accordance with Newport Beach Municipal Code (NBMC) 15.02.095 (Addition of Sections 105.3.3, 105.3.4 and 105.3.5), Section 105.3.4, Item 2

PERMITS: X2021-1337, XR2022-2816, XR2022-3090, XR2022-3218, XR2023-1886

SITE LOCATION: 1400 San Miguel Drive

APPLICANT: Brian Carroll

PROPERTY OWNER: Charles Smith Enterprises LLC

BUILDING INSPECTOR: John Thornton, Building Inspector II

PREPARED BY: Tonee Thai, Chief Building Official - 949-718-1867, tthai@newportbeachca.gov

PROJECT SUMMARY

Add 499 square feet to the bedroom/bath/kitchen, add 543 square feet to garage, and remodel 2,130 square feet to existing single family dwelling.

BUILDING PERMIT HISTORY

This project first started with Permit X2021-1337 issued on March 25, 2022, with subsequent permits that have expanded the scope of work. Referenced permits above are subject to Newport Beach Municipal Code 15.02.095 with initial three-year construction limit expiration date of March 25, 2025.

Permit XR2022-3090 is a supplement permit for additional scope of work to re-roof, add 113 sq. ft. to 1st floor, 216 sq. ft. to 2nd floor, extend roof over existing deck.

Permit XR2022-3218 is a supplement permit for additional scope of work to repair termite and dry-rot on deck, add 138 sq. ft. to the bedroom, and add 307 sq. ft. to the primary closet.

Permit XR2023-1886 is a supplement permit for additional scope of work to add 176 sq. ft., reframe 1,224 sq. ft. of the 2nd floor deck, replace the stairs and replace 36 windows and doors.

Permit XR2022-2816 is a supplement permit for additional scope of work to construct new retaining wall inside the property line.

The first permit was issued on March 25, 2022.

The first inspection was on October 27, 2022, for retaining wall footing and foundation.

The last inspection was on March 10, 2026, for shear and hold downs.

Please refer to Attachment 1 for detailed permit history.

Notice of pending Three-Year Construction Limit expiration was sent on January 21, 2025.

Please refer to Attachment 2 for detailed notice activities.

BUILDING OFFICIAL EXTENSION

The chief building official granted an extension for a three-year construction time limit on March 25, 2025, with expiration date of March 25, 2026. (Attachment 3).

RECOMMENDATION

- 1) Conduct a public hearing;
- 2) Find this project exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15301 under Class 1 (Existing Facilities) of the CEQA Guidelines, because this project has no potential to have a significant effect on the environment;
- 3) The hearing officer may grant, or conditionally grant, up to a 180-calendar day extension, per application for extension, if the officer finds special circumstances warrant an extension of time, or the failure to meet the time limit was caused by circumstances beyond the property owner, applicant, or the contractor's control. If the officer makes the findings to grant an extension, then the officer shall consider whether conditions are necessary to ensure the timely completion of the project in a manner that limits impacts to the surrounding property owners. The hearing officer shall deny the application if they cannot make the findings set forth in Newport Beach Municipal Code Section 15.02.095 (Addition of Sections 105.3.3, 105.3.4, and 105.3.5).

PUBLIC NOTICE

Notice of this hearing was published in the Daily Pilot, mailed to all owners of property within 300 feet of the boundaries of the site (excluding intervening rights-of-way and waterways) including the applicant, and posted on the subject property at least 10 days before the scheduled meeting, consistent with the provisions of the Municipal Code. Additionally, the item appeared on the agenda for this meeting, which was posted at City Hall and on the city website.

OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors' State License Law for the reason(s) indicated below by the check mark(s) I have placed next to the applicable item(s): (Section 7031.5, Business and Professions Code. Any city or county that requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for the permit to file a signed statement to the provisions of the Contractors' State License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt from licensure and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).

I, as owner of the property, or my employees with wages as their sole compensation, will do () all of or () portions of the work, and the structure is not intended or offered for sale (Section 7044 Business and Professions Code). The Contractors' State License Law does not apply to an owner of property who, through employees or personal effort, builds or improves the property, provided that the improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the Owner-Builder will have the burden of proving that it was not built or improved for the purpose of sale!

I, as owner of the property, am exclusively contracting with licensed Contractors to construct the project (Section 7044 Business and Professions Code). The Contractors' State License Law does not apply to an owner of property who builds or improves thereon, and who contracts for the projects with a licensed Contractor pursuant to the Contractors' State License Law.

I am exempt from licensure under the Contractors' State License Law for the following reason:
By my signature below I acknowledge that, except for my personal residence in which I must have resided for at least one year prior to completion of the improvements covered by this permit, I cannot legally sell a structure that I have built as an owner-builder if it has not been constructed in its entirety by licensed contractors. I understand that a copy of the applicable law, Section 7044 of the Business and Professions Code, is available upon request when this application is submitted or at the following Web site: <http://www.leginfo.ca.gov/calaw.html>.

OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors' State License Law for the reason(s) indicated below by the checkmark(s) I have placed next to the applicable item(s): (Section 7031.5, Business and Professions Code. Any city or county that requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for the permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors' State License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt from licensure and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).

I, as owner of the property, or my employees with wages as their sole compensation, will do all of portions of the work, and the structure is not intended or offered for sale (Section 7044 Business and Professions Code). The Contractors' State License Law does not apply to an owner of property who, through employees' or personal effort, builds or improves the property, provided that the improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the Owner-Builder will have the burden of proving that it was not built or improved for the purpose of sale.

I, as owner of the property, am exclusively contracting with licensed Contractors to construct the project (Section 7044, Business and Professions Code). The Contractors' State License Law does not apply to an owner of property who builds or improves thereon, and who contracts for the projects with a licensed Contractor pursuant to the Contractors' State License Law).

I am exempt from licensure under the Contractors' State License Law for the following reason:
By my signature below, I acknowledge that, except for my personal residence in which I must have resided for at least one year prior to completion of the improvements covered by this permit, I cannot legally sell a structure that I have built as an owner-builder if it has not been constructed in its entirety by licensed contractors. I understand that a copy of the applicable law, Section 7044 of the Business and Professions Code, is available upon request when this application is submitted at the following Web site: <http://www.leginfo.ca.gov/calaw.html>.

Field Memorandum

Date: 5-15-23	Job No.: D-11873 B
Client: C Jones & Company	Site Contact: Ron (714) 276-7844
Job Location: 1400 San Miguel Dr, Newport Beach	
Contractor:	
Subject: Excavated footing for New R-wall. - Testing the bottom to 90% Relative Compaction -	

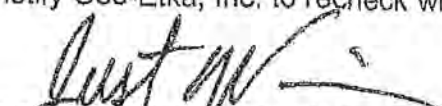

Observations: Contractor excavated the footing for the new R-wall. Footing was excavated into firm compacted native soil. (Native soil is bedrock). Crew moistened and compacted the bottom with a hand held whacker w/foot. After the compaction was completed, I took density readings with my gauge in random locations. All my tests passed 90% relative compaction, moisture was near optimum that is required per plans. OK to continue with the next step from a geotechnical point of view. Going to use #5 rebar & pour concrete footing. All per plans. Footing size, depth, width, etc

Any loose soil, if any at the bottom of the footing must be removed prior to concrete pour

Attention:

This memorandum is not intended as a substitute for the stamped and signed report. It is issued as a temporary measure for field use only. A detailed report complete with plans and test data must be issued by this office.

This memo is null and void if adverse weather conditions occur immediately after this inspection and can negatively affect the compaction, concrete or paving. The client should notify Geo-Etka, Inc. to recheck within 72 hours of such weather conditions.

Gen Contr: C. Jones & Company

Sub Contr: Hoff Const

Report of Special Inspection

Project Name Address: Gallardo Res / 1400 San Miguel

Permit Number: X2021-1337

Inspection Type(s) PT

Inspection Date(s) 6/14/2023 [] Periodic [] Continuous

Describe Inspection Made, including Locations:

Observed the stressing of the (6) 1/2" cables at the new addition and repairs.

-All 6 cables were stressed to 80% of the design load at 4,300psi

-No Failures occurred

List Tests Made:

Read and reviewed the calibration records for the hydraulic jack

Total Inspection Time Each Day:

Date	6/14/2023						
Hours	MIN						

List Items Requiring Correction, include uncorrected items previously listed

Comments

To the best of my knowledge, the work inspected was in accordance with the Building Department approved design drawings, specifications and applicable workmanship provisions of the U.B.C. except as noted above.

BUILDING HEIGHT CERTIFICATION

Project Street Address: 1400 San Miguel Drive, Corona Del Mar, CA 92625

Building Permit Number(s): #

As the surveyor of record for the project at the above address, I hereby certify that I have reviewed the City of Newport Beach approved plan and original topographic survey and based the elevations listed below on those plans.

Elevations shall include an allowance for roofing material thickness if not yet installed. Provide each critical ridge and flat roof, or roof deck railing elevations indicated on the approved plans. Use the format below on the back of this form if additional space is necessary or further explanation is needed. Provide original copy to the inspector before roof framing inspection.

All elevation points are based on: NAVD88 NGVD29 Assumed

Please provide the following elevation information for the highest roof ridges, flat roofs, or parapets/guardrails. Additional elevation points may be requested by the Building Inspector.

RIDGES (3:12 slope or greater)

- Approved elevation point of ridge is _____ and actual elevation point is _____.
- Approved elevation point of ridge is _____ and actual elevation point is _____.
- Approved elevation point of ridge is _____ and actual elevation point is _____.
- Approved elevation point of ridge is _____ and actual elevation point is _____.
- Approved elevation point of ridge is _____ and actual elevation point is _____.
- Approved elevation point of ridge is _____ and actual elevation point is _____.

FLAT ROOFS, PARAPETS AND GUARDRAILS

- (A) Approved elevation point of flat roof or parapet is 227.00 and actual elevation point is 226.84.
- (B) Approved elevation point of flat roof or parapet is 227.00 and actual elevation point is 226.86.
- (C) Approved elevation point of flat roof or parapet is 227.00 and actual elevation point is 226.80.
- (D) Approved elevation point of flat roof or parapet is 227.00 and actual elevation point is 226.79.
- (E) Approved elevation point of flat roof or parapet is 227.00 and actual elevation point is 226.77.
- (F) Approved elevation point of flat roof or parapet is 227.00 and actual elevation point is 226.78.

I certify that the above height measurements are correct and the above project:

- IS in compliance with the City-approved plans.
- IS NOT in compliance with the City-approved plans (Provide explanation).

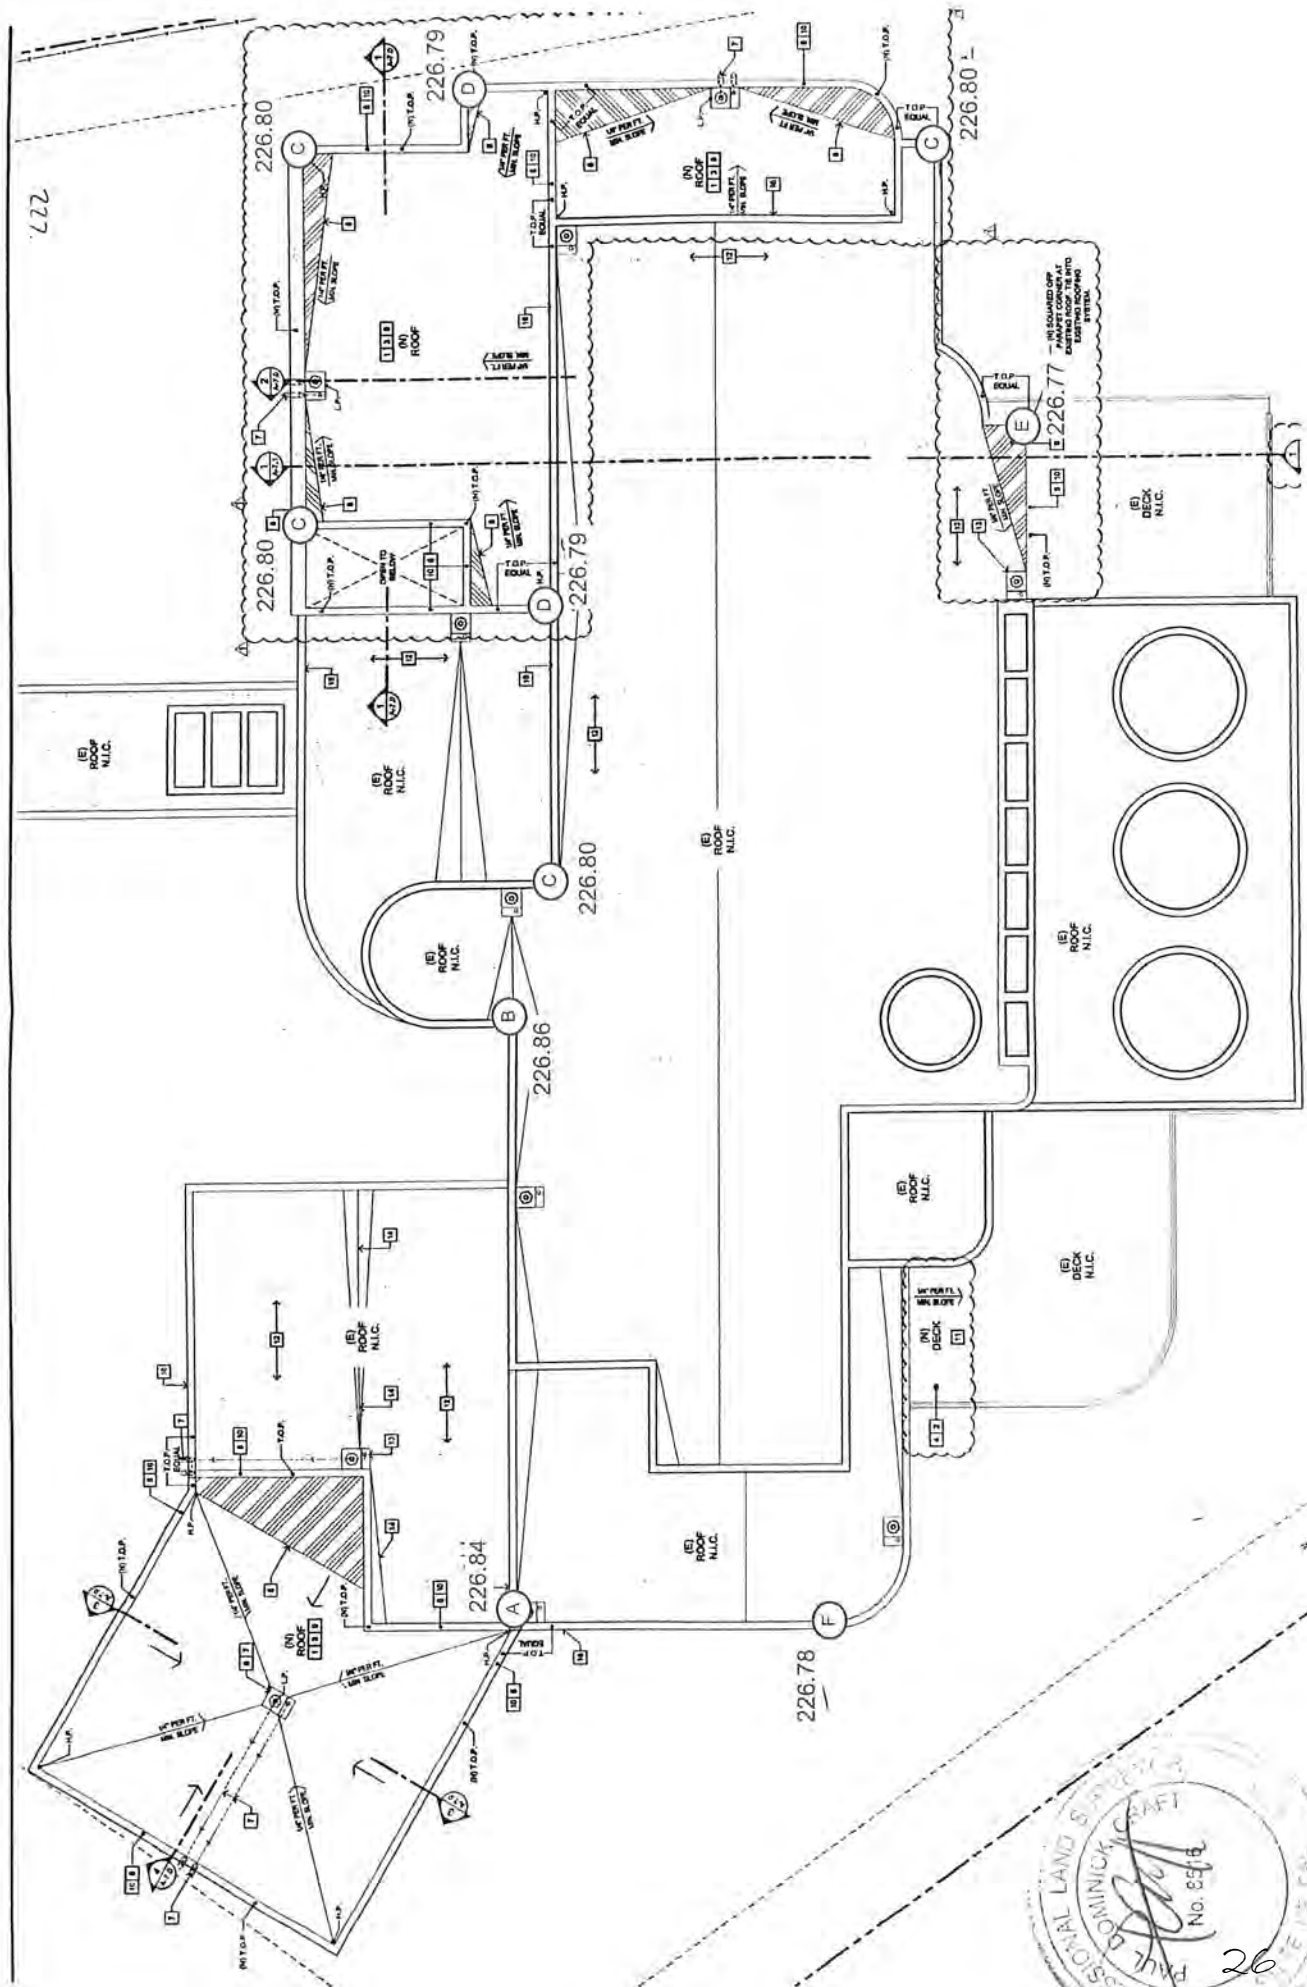

Please describe any deviation from the City-approved plans on the back of this form.

Three-Year Construction Limit Notice Activities

City of Newport Beach

Community Development

Tuesday, January 21, 2025

C JONES & COMPANY
P.O. Box 2946
COSTA MESA, CA 92628

Subject: Notice of Three (3)-Year Expiration Deadline for Building Permits

Address: 1400 SAN MIGUEL DR NEWPORT BEACH, CA 92625

Thank you for your continued interest in investing in the City of Newport Beach. Per Ordinance No. 2022-8, all residential one-unit and two-unit dwelling projects must be completed in a three (3)-year period. Our records indicate that your permit **X2021-1337** issued on **03/25/2022** is set to expire on **03/25/2025**, as set forth in Newport Beach Municipal Code Section 15.02.095. This includes any *related* permits, such as electrical, mechanical, plumbing, swimming and fire permits issued at a later date.

A property owner, or authorized agent of the property owner, may request an extension in writing with the Chief Building Official. The application for extension can be found online at <https://newportbeachca.gov/permitextension>.

The application shall include all information to help assess if an extension is warranted. At a minimum, you will be required to include: the length of the time extension requested; justification for the requested extension; and the projected date of completion.

Please submit your application no later than forty-five (45) calendar days prior to the expiration of the building permit.

Permits that need more time than granted by the Building Official may file an additional extension application with an Administrative Hearing Officer. The extension application for the Hearing Officer shall be submitted no later than forty-five (45) days prior to the expiration date granted by the Building Official.

For any questions, please contact **Rick La Bare** at **949-644-3261** or RLABARE@newportbeachca.gov.

Sincerely,

Subject: Authorization as Contractor Agent for 1400 San Miguel Drive, Corona Del Mar, CA 92625

This letter serves to formally authorize Chris Jones of C. Jones & Company Inc. to act as my agent on my behalf in all matters related to the construction project at 1400 San Miguel Drive, Corona Del Mar.

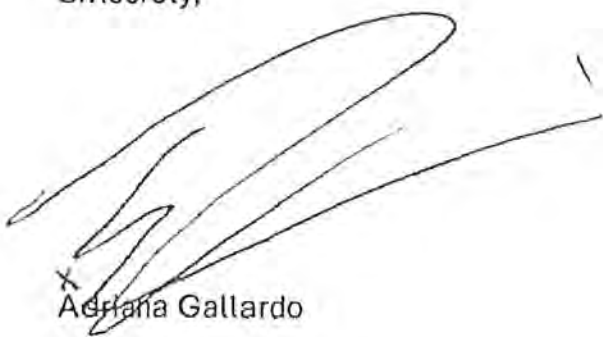

As my authorized agent, C. Jones & Company is hereby granted the authority to:

- Communicate with relevant parties regarding the project on my behalf.
- Submit necessary permits and applications to the appropriate authorities.
- Sign other City of Newport Beach related documents related directly to the construction project.

This authorization is specifically limited to the aforementioned project at 1400 San Miguel Drive, Corona Del Mar and shall remain in effect until the completion of the construction work.

Please do not hesitate to contact me if you have any questions regarding this authorization.

Sincerely,

X

Re: Permit XR2021-1337 3-Year Construction Time Limit Extension Building Official Application

Dear Tonne Thai:

In conjunction with the City of Newport Beach Construction time limit & time limit extension we are writing this letter on behalf of our client to provide an explanation as to why we are requesting an extension to this permit.

Upon the start of demolition on the project in mid-April of 2022 we immediately found that the existing structure was in disrepair. The existing structure was almost 50%-60% deteriorated from water damage. In addition to the water damage, we found major structural defects throughout the structure. In conjunction with the Architect & Structural Engineer several major revisions had to be developed & submitted to the City of Newport Beach to address these existing unforeseen conditions and repairs. During this time, we had to pause our window & door order several times to ensure that the final window & door order aligned with the approved revisions. Some of the existing window & door rough openings were located in areas where structural repairs were needed. This also created several procurement & lead time issues with the order and subsequent reorder(s).

During the 2023 through 2024 winter season, we encountered substantial inclement weather-related delays on the project. Unfortunately, this could not have come at a more challenging time during the progress of work. During this time, we were working on completing the foundation work and starting our structural framing & steel work. Although precautions were taken to protect the as-built structure we incurred some damages to the framing & site work, all of which had to be corrected.

In March 2024 we learned along with our client and the design team that her entire plumbing fixture and appliance package was part of the Pirch Bankruptcy situation. This resulted in the design team & C. Jones & Company having to pause any planned plumbing rough-in work as we worked with the design team to ensure that all the previously approved fixtures could be repurchased from an alternative supplier.

C. JONES & COMPANY

Integrity | Collaboration | Craft

As the project continued to progress, in June 2024, a declaration of special restrictions & notice of special conditions on the property was provided to our owner by an adjoining neighbor. Although the plans had already been approved by the City of Newport Beach and the adjoining Homeowners Association, the project was paused out of an abundance of caution for several months while the Architect, C. Jones & Company & the Owner addressed the situation with the recorder of the original document, The Irvine Company, The City of Newport Beach & the adjacent Homeowners Association. Eventually this situation was successfully resolved with limited changes to the approved design and no legal action taken by any party.

We have a comprehensive project schedule that has been used from the start of the project. This schedule is updated monthly. We plan to continue to manage the project carefully to ensure the timely completion. We are currently underway with our plumbing & mechanical rough-in work. We are also taking measures to dry-in the project so that we can continue with work on the interior & mitigate any weather-related delays. We are happy to cooperate with the City of Newport Beach in any way we can. We have also been working closely with our Building inspector Mr. Rick LaBare to ensure that the project continues to meet inspection milestones.

Please contact me with any questions or if you need any further information regarding the project.

Sincerely,

Chris Jones

To: Trifon Metodiev
Subject: 1400 San Miguel Project- Neighbors Complaint (court documents included)
Attachments: Steve Leonard v Charles Smith Enterprises LLC.pdf; FW: Broadmoor Hills Community Association - 1400 San Miguel Drive, NB

Trifon, see attached PDF and snapshot below. The Civil case documents state 227 on Page 3 (snapshot below that is highlighted). The court documents call out a maximum top of roof height at 227. The document references the original declaration of special conditions filed by the Irvine Company back in 1982.

The approved city plans and also HOA approved plans call out a top of finished parapet height of 229.53. Which is what our benchmark is set to on the roof. This is the difference of 2-1/2".

I believe you already clarified this to the HOA? See attached email. Maybe we just need to clarify this to the neighbor?

16 provided to future purchasers of the Property.

17 NOW, THEREFORE, Declarant hereby imposes this Declaration upon the Property. The

18 conditions and restrictions contained in this Declaration shall be binding upon and

19 provide notice to all parties having or acquiring any right, title, or interest in the Property.

20 The benefit of the restrictions contained herein shall run to the owners of that adjacent

21 property described as Tract 6385....

22 3. Construction.

23 The elevation of the building ridge line of the residence constructed upon the Property

24 shall be limited to 227 feet above mean sea level (17 feet above the building pad).

25 d. Trees and Landscaping.

26 All trees or landscaping located upon the Property shall be pruned to a height not to

27 exceed the ridge line of the residence located on the Property.

28 13. As the owner of a property in Tract 6385, Plaintiff receives the benefit of the

restrictions contained within the Restrictive Covenant.

Subject: RE: 1400 San Miguel HOA Response - NAD 83 - NAVD 88

Trifon & Kim-

My suggestion at this point is to have AG's real estate attorney write a letter to the HOA this week and explain to them the unforeseen condition & "as-built" condition that was found on the property during the course of this extensive renovation. The real estate attorney will then need to determine in conjunction with the HOA and or their board if the height restriction can be amended or if the as-built condition of the house will need to be changed to be in compliance with the original height restriction.

We need to get this done & approved by the HOA before we start framing. This is critical and could significantly affect the project schedule.

Kim, I wanted to explain this to you separately. I've cc'd you on these emails, but I'm not sure you have been following. The existing house is 2" higher than the allowable height on the Deed Restriction from HOA. This is all HOA we are dealing with, not city. My first HOA submittal was returned with comments, and they thought we were approx. 2.5 feet over the height, but there were changes to the way those points were measured since the deed restriction was written. We have the conversion factor and difference figured out, but we are still over by 2". I've asked the civil engineer to write up a letter to re-submit explaining our case. I am building a case to get us through the HOA.

Subject: Re: 1400 San Miguel HOA Response - NAD 83 - NAVD 88

Good morning Trifon,

I apologize for not getting back to you sooner on this. We did send a crew out to check into nearby benchmarks but didn't find any significant disagreement that would alter the topo (+/- 0.02').

I then compared our topo to the original topo from 1987. I dropped the elevations of my topo down to the 1929 datum holding the same benchmark and overlaid the 1987 topo. MacArthur Blvd. appears to have been widened at some point and has no data to compare, however San Miguel had several common measurements that were surprisingly close. I put call-outs on the attached pdf drawing [topo29 \(2.1\)](#). Unfortunately, this still doesn't help our case.

Lastly, I re-examined my topo for any errors. The earlier issues of the topo intentionally did not include roof ridge measurements. I've now updated the topo to show the parapet along the rear building line. These are the most reliable measurements of the roof line and any other points found on locked or hidden AutoCAD layers should be removed. This brings the roof height down a little bit, but ultimately the as-built roof height is still approximately 2" over the deed restriction height limit. Given the variables, this seems very reasonable to me.

As for the Datum issue...I've put a datum equation on the [topo88 \(2.1\)](#) to help better understand the shift. I've also included literature explaining the shift. If you still need a formal letter I can certainly prepare that as well. Let me know how you would like to proceed.

Thanks again for your patience and let me know if you have any questions.

Have a great day.

Subject: Re: 1400 San Miguel HOA Response - NAD 83 - NAVD 88

Good morning All,

Here is the published data sheet with a brief explanation of the datum difference.

Unfortunately, using the 1929 benchmark still reports the elevations about 3-1/2" high. It should be noted that this benchmark was established by OC Survey in 1999, long after the NAVD88 datum had been adopted. It's possible that this benchmark was never directly tied to the 1929 datum and derived from a datum transformation model.

I suggest that we tie the project to a different benchmark that has a true NGVD29 elevation and see if that gets us a little closer to the 2.67' delta.

Let me know what you think.

Thanks.

Subject: 1400 San Miguel HOA Response - NAD 83 - NAVD 88

Morning Jason,

I need help in responding to an HOA comment to a project you worked on and did the survey. Backstory: the neighboring HOA has a height restriction on our property to protect their views dated 1982 (declaration attached). The original house was built in 1986/87. My assumption is that the original survey datum points used were based on NAD 83, your survey uses NAVD 88. The difference between the two is the height they are saying we are over. **Can you provide a letter that I can respond to them explaining the difference?** Below is the email I received from their HOA liaison. Thank you.

"Hello Trifon,

As per the Architect for Broadmoor Hills Community Association,

"After reviewing the new and existing plans it appears that the new plans indicate the existing and proposed new addition roof height as 229.67'. The old existing plans indicate the maximum height as 227.0', making the existing constructed home and the addition 2.67' higher than permitted in the Declaration. Additionally, the existing plans indicate a 1st floor elevation as 205.5' and the new as 208.09'.

Consequently, it appears that the existing structure was built 2.67' higher or that the noted roof height on the new plans is not based on 227' above mean sea level.

We need a certified survey of the existing roof & associated parapet and 1st floor finish elevation submitted based on 227' above mean sea level. We also need as-built elevations of the existing structure".

Please provide this information at your earliest convenience. Thank you."

DECLARATION OF SPECIAL RESTRICTIONS

AND

NOTICE OF SPECIAL CONDITIONS

LOT 21 - TRACT 10625

THIS DECLARATION OF SPECIAL RESTRICTIONS AND NOTICE OF SPECIAL CONDITIONS ("Declaration") is made this 16th day of November, 1982, by The Irvine Company, a Michigan corporation ("Declarant").

THIS DECLARATION is made with reference to the following facts.

A. Declarant is the owner of that property located in the City of Newport Beach ("City"), County of Orange, State of California, described as follows:

Lot 21 of Tract 10625 as shown on that map recorded in Book 481 at Pages 6 to 9, inclusive, Miscellaneous Maps, official records of said County ("Property").

B. In connection with the approval of the subdivision map for Tract 10625, the City has required that certain restrictions be imposed by the Declarant upon the Property and that notice of these restrictions as well as additional conditions concerning the Property be provided to future purchasers of the Property.

NOW, THEREFORE, Declarant hereby imposes this Declaration upon the Property. The conditions and restrictions contained in this Declaration shall be binding upon and provide notice to all parties having or acquiring any right, title, or interest in the Property. The benefit of the restrictions contained herein shall run to the owners of that adjacent property described as Tract 6385 as shown on that map recorded in Book 335 at Pages 1 through 5, inclusive, official records of said County as well as the owners of Lot 1 through 20 of Tract 10625.

1. Noise.

The Property is subject to high noise levels due to traffic on San Miguel and MacArthur Blvd.

2. Access.

Access to the Property is restricted to the existing curb cut on San Miguel Drive as shown on the tract map for Tract 10625 and on improvement plans for the Property.

3. Construction.

Construction plans for the Property shall be subject to the review of the Broadmoor Hills Community Association, a California non-profit corporation and the approval of the City, so as to assure that the view planes of residences within Tract 6385 are not obstructed.

82-404898

The elevation of the building ridge line of the residence constructed upon the Property shall be limited to 227 feet above mean sea level (17 feet above the building pad).

4. Trees and Landscaping.

All trees or landscaping located upon the Property shall be pruned to a height not to exceed the ridge line of the residence located on the Property.

IN WITNESS WHEREOF, Declarant has executed this Declaration on the date first written above.

THE IRVINE COMPANY,
a Michigan corporation

Subject: RE: PIRCH: Order 231366 (or QUO-375697)
Importance: High

Hi Kathy & Adriana, based on what we are hearing from other interior designers we are working with & other industry professionals, the situation with Pirch seems to be worsening. There has been no confirmed communication across the construction industry from Pirch regarding their closure. We have not heard back from Pirch regarding the email we sent on March 22 requesting a full refund for all orders on the project. Many other industry professionals & clients are in the same situation.

Most of our other clients and some of their designers have begun to retain legal counsel to help navigate the situation with Pirch. I would advise at this point that we have you do the same. There have also been some early discussions about the formation of a class action lawsuit against Pirch. However, we do not know much more about that at this time. Can you contact your legal counsel and see if they have experience dealing with insolvency & possible bankruptcy matters? If so, can we set up a call with them to discuss the immediate next steps? If your legal team does not have experience with these types of matters maybe they can recommend someone, or I may have someone I can recommend that is familiar with the Pirch situation.

Please let me know if you have any immediate questions.

Thank you.

Subject: RE: 1400 San Miguel Project, Newport Beach- Pirch Matter Attorney Introductions
Importance: High

Hello Adriana, any additional thoughts on how you would like to handle the Pirch bankruptcy matter on the project? I know per your text a few days ago you mentioned that you didn't want to hire an attorney to deal with this, but I think it's best to at least consult with one for advice on how best to proceed. Preferably an attorney who deals with Bankruptcy and insolvency matters. All our other clients & interior designers at this point have their attorneys working on this due to the complicated nature of bankruptcy.

We need to also discuss next steps for having to re-order all the plumbing fixtures and appliances for the project. Once framing on the project wraps up and the roof is temporarily dried in, we will be ready to start the rough plumbing work on the project. At this time, we generally need a handful of the plumbing fixtures & drains on site ready to install.

On most of our other projects we are taking over the previous Pirch orders and shifting them over to our other suppliers.

Please let me know how we can help.

**BROADMORE HILLS COMMUNITY ASSOCIATION
ARCHITECTURAL COMMITTEE - DESIGN REVIEW COMMENTS**

Owner/Applicant:	Gallardo Residence
Address:	1400 San Miguel
Architect:	Vulkan Architects
Surveyor:	Laguna Survey & Mapping
Review Date:	9/19/2023

I. Roof Height Review Comments:

Based on the survey by Laguna Survey & Mapping dated 5/9/2023, the existing ridge height has been validated from the 1929 Datum (Topo per NGVD29) to the 1988 Datum Topo per NAVD88) to provide a maximum height of the Deed Restriction of 227.00' to the new datum of 229.35'.

The Existing Parapet Roof height as surveyed is 229.53' NAVD88 or 227.18' NGVD, 2-1/8" above the maximum allowable.

The Proposed addition is requesting a 2nd floor addition to match or align with the 229.53' NAVD88 (227.18' NGVD29).

The ARC is to determine if the 2-1/8" height encroachment is acceptable.

Should you have any questions or concerns regarding these comments do not hesitate to call.

Sincerely,
David George + Associates, Inc.

Good morning Trifon,

I apologize for not getting back to you sooner on this. We did send a crew out to check into nearby benchmarks but didn't find any significant disagreement that would alter the topo (+/- 0.02').

I then compared our topo to the original topo from 1987. I dropped the elevations of my topo down to the 1929 datum holding the same benchmark and overlaid the 1987 topo. MacArthur Blvd. appears to have been widened at some point and has no data to compare, however San Miguel had several common measurements that were surprisingly close. I put call-outs on the attached pdf drawing topo29 (2.1). Unfortunately, this still doesn't help our case.

Lastly, I re-examined my topo for any errors. The earlier issues of the topo intentionally did not include roof ridge measurements. I've now updated the topo to show the parapet along the rear building line. These are the most reliable measurements of the roof line and any other points found on locked or hidden AutoCAD layers should be removed. This brings the roof height down a little bit, but ultimately the as-built roof height is still approximately 2" over the deed restriction height limit. Given the variables, this seems very reasonable to me.

As for the Datum issue...I've put a datum equation on the topo88 (2.1) to help better understand the shift. I've also included literature explaining the shift. If you still need a formal letter I can certainly prepare that as well. Let me know how you would like to proceed.

Re: 1400 San Miguel Drive ☐ Change of Contractor / Owner-Builder Authorization

To Whom It May Concern,

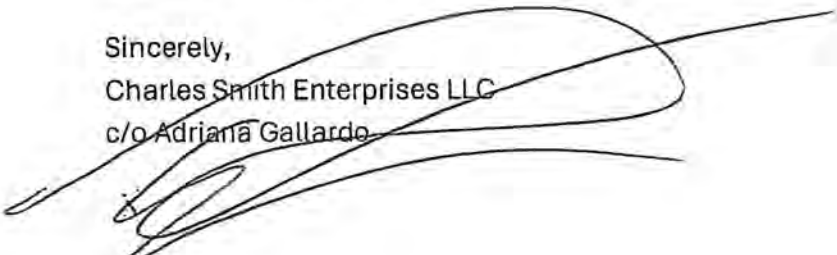

I am writing to formally notify the City of Newport Beach that I am terminating the contractor of record, Chris Jones and Co. for my residential project located at 1400 San Miguel Drive, Newport Beach, CA 92660.

I am hereby requesting to assume responsibility as the Owner-Builder for this project. Please update all records, permits, and legal instruments to reflect this change.

Additionally, I authorize Brian Carroll to act as my agent for all matters related to this project. His California B-1 Contractor's License number is 348696. Please include him as the designated agent in all project-related documentation.

I appreciate your assistance in processing this request. Should you require any additional information, please do not hesitate to contact me.

Sincerely,
Charles Smith Enterprises LLC
c/o Adriana Gallardo

ACKNOWLEDGMENT

A notary public or other officer completing this certificate verifies only the identity of the individual who signed the document to which this certificate is attached, and not the truthfulness, accuracy, or validity of that document.

State of California
County of Orange)

On December 12, 2025 before me, Philip Andrew Horn, Notary Public
(insert name and title of the officer)

personally appeared Adriana Gallardo,
who proved to me on the basis of satisfactory evidence to be the person(s) whose name(s) is/are
subscribed to the within instrument and acknowledged to me that he/she/they executed the same in
his/her/their authorized capacity(ies), and that by his/her/their signature(s) on the instrument the
person(s), or the entity upon behalf of which the person(s) acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing
paragraph is true and correct.

WITNESS my hand and official seal.

Signature Philip Horn (Seal)
